

WE
INNOVATE

ÇAĞ UPHOLSTERY NAILS & STAPLES CORP.

ÇAĞ UPHOLSTERY NAILS & STAPLES CORP.

OUR HISTORY

Our company has been established as a small workshop by Yasar Kocabas in Gungoren – Istanbul in 1977 for the purpose of producing upholstery nails, which were not being produced in Turkey at that time. Later, it was moved to its new work place in Gunesli/ Istanbul and from there to its production plant in Avclar in 1980s in order to meet the increasing demands of the market. Staple production was added into the production line in the beginning of 1990s with the brand new staple production machines, brought from Germany. Our company, which was continuously fed with new technology and automation, moved to its new premises, located on 20.000 m2 piece of land, in Silivri in 2005 when it was no more able to fit in production plant in Avclar.

OUR VISION

As a company, which respects the environment, contributes the country economy, owns ethical values and gives great importance to the customer and employee satisfaction, our vision is presenting products and solutions customer oriented, carrying the sector leadership in Turkey to Europe and becoming one of the three top companies in the world.

OUR MISSION

Presenting the innovative, quality and the best solutions in the area of furniture side industry, where we are actively carrying our trade activities, and protecting this innovation concept all together.

OUR QUALITY POLICY

- Providing a happy and modern production environment to our employees, so they can embrace their company in safety.
- Placing customer satisfaction ahead of everything in production and rendering service without boundaries.
- Making our trade mark a brand name, which is popular both in Turkey and in the world.
- Being a participative company, sensible to the environment and open social developments.

OUR VALUES

- Our customers: They are the reason of our existence. If they don't exist, the reason of our existence also ceases. Their satisfaction is our primary target.
- Our Employees: We exist with them. If they are improved, our company is also improved.
- The Technology and Innovation: Being a global trade mark and provide sustainability is only possible by following the technology closely and always running after the latest.
- Our Quality: We must produce the best quality with the most convenient price efficiently.
- Society: Along with producing quality with the best price, displaying useful and positive affords is also one of our values.
